FAAC 950 SWING DOOR OPERATOR

We would like to remind you that the FAAC Model 950 Swing Door Operator is available. The 950 is actually rated to handle doors weighing well over 1000 pounds. The 950 is easy to install with several mounting options available and has advanced electronics, including programmable speed control, reverse on contact, day/night modes and more. The 950 is ideal for handicap doors as well. Please call for more information on the 950 swing door operator.

AUTOMATIC AND SEMI-AUTOMATIC BOLLARDS

In previous newsletters we introduced the FAAC line of bollards. Both automatic and manual models are available. Please call with any questions including assistance in system design. Please contact us for literature and pricing.

SOLAR OPERATORS

With the addition of the Viking line of DC slide and swing gate operators, barrier gates, as well as the Hysecurity swingsmart and slidesmart DC gate operators, Power Door is much more confident in selling solar operators in our northeast territory. Solar jobs must be planned carefully so please call for assistance in planning your solar projects.

ROSSLARE

We would like to remind you that the Rosslare line of access controls offers extremely competitive card readers and keypads, both stand alone and networked computer programmed models. We can also package Rosslare controllers with Long Range ðEZ PASSö style card readers. Power Door can pre wire these systems for you so they are ready to go out of the box. Please call us to discuss your next access control project.

POWER DOOR SERVICE

Power Door Products prides itself on the personal service to its customers. We are happy to assist you, both over the phone and in the field with system design, pricing and troubleshooting. Power Door will also meet with your architects and engineers to help lay out a system. We have the complete product line and personnel to assist you with your project from start to finish. We believe that this team approach is the best way to ensure a successful, profitable project!

REMINDERS!
